FIBRO *Pen*™ SYSTEM

Your own natural filler

Medical Device

*Your own
natural filler*

Fibropen System is the first and only medical device with Radiofrequency technology that works in the derma like *a natural filler treatment*. The uniqueness of this device is in the possibility to realize a Micro-Targeted Fibrosis in a specific area of the tissue.

FIBROPen™ SYSTEM

Equipped of a **Fibropen System** bipolar needle, it gives the operator the possibility to work with precision directly inside wrinkles and scars causing a selective micro-fibrosis and stimulating fibroblasts.

With the **Fibropen System** all the therapeutic benefits of the Radiofrequency may be used even on the smallest wrinkles working inside the tissue avoiding thermal damages and pain.

*Therapeutic
